

Professional Practice Visuals

- Visuals – Hand Drawings and Photoshop Drawings of potential display proposals.
- Used photographs from Ladybarn Primary School and pupils taster sessions work to compose and create striking visuals in perspective and realistic form.

VISUAL: DISPLAY IDEA

Integrating two new display boards with presented work will brighten up the corridor a little.

- The complete left of the corridor could be completely re-displayed and filled with new artwork. Two large boards could be mainly for the classic displays because room for other curriculum displays would be needed.

Walking down the corridor at school it was really dark and a bit empty. The displays were a bit boring.
